

135'

**E.C. Keys Coal Trestle (modified)**  
**Based on B&O RR company design (modified)**  
Drawn by Ben Sullivan  
ben.sullivan75@gmail.com  
Drawing is in HO scale 1:87

This drawing is based on a B&O standard plans design and represents a modified (shortened) version of the E.C. Keys trestle that existed near Linden, MD on the Georgetown Branch of the B&O. The trestle served a coal and fuel oil business and based on aerial photos was approximately 227' long, 15' wide, unknown height.
